Thought of the Week
“Antonym, n.: The opposite of the word you’re trying to think of.” - Unknown

Virtue of the Week
Our virtue of the week is reliability. Reliability means that others can depend on you to keep your commitments. Reliability is also doing something that you have agreed to do in a predictable way, without forgetting or having to be reminded. When we all practise reliability, we really care about doing what we said we would do and other people can relax knowing the task is in our reliable hands. Please consider discussing being reliable with your child/ren over the next week.

Principal’s Message
This week, our Year Threes and Year Fives undertook their 2015 NAPLAN Tests, like all learners across Australia. I would like to congratulate each and everyone of our learners on their fantastic attitudes, efforts and ‘have a go’ attitude. This Assessment Program is a ‘snapshot’ of just how Australian Year Three, Five, Seven and Nine learners are performing and can be used to determine growth and gain over time.

I would also like to express my thanks to the Teacher and Teacher Aide Teams for all of their work in reassuring our learners and preparing them for this week’s NAPLAN Tests over an extended period of time. At Parkhurst State School, like many others, this is not a process that occurs just prior to the NAPLAN Week. It is an ongoing and supportive process that develops the individual literacy and numeracy needs of each learner through ongoing assessments. Well done everyone!

Each morning of NAPLAN this week, a scrumptious Breakfast was provided by our amazing P&C Association to prepare each and every learner and help ‘fight the fuzzies’. Each year, the support for this much appreciated and valued initiative grows and grows. Particular thanks must go to Mrs Michelle Welfare, Mrs Melinda Hohn and Mrs Belinda Wyvill who led the fantastic team of volunteers. This year, Breakfast was again extended to all learners and was well received by all who participated. A final thanks must go to all of our parents and carers who have worked in partnership with the school to prepare and support their children. Without you, our school wouldn’t be the amazing place it is. Thanks everyone!

Until next week,

Lyle Walker

Mental Computation Strategy

This week’s mental computation strategy is rounding. Below is a copy of the poster in all classrooms and an explanation to assist Mums and Dads to help their children to attain their full potential in Mathematics.

**Rounding**

Adding with friendly numbers is easy. That is why it is a good strategy to round up or down to the nearest 10.

- **2** is less than 5, so round down to **30**.
- **7** is more than 5, so round up to **80**.

Rounding up or down to the nearest ‘friendly number’ is an important skill, as it forms the basis of estimation, a skill that enables students to check the reasonableness of an answer. By rounding and adjusting, a mental computation is made easier if one of the numbers is rounded to a friendly or landmark number before the addition is carried out.

For example, to find **29 + 57**, we can round the 29 to **30**, then add 30 to 57 giving 87 and then adjust by subtracting 1 to give 86, because we know that we have added 1 too many. Round and adjust can also be thought of as round and compensate.

To find **29 + 57**, we round the 29 to **30** and compensate by reducing the 57 by 1 giving 30 + 56, which is an easier mental computation.

School Banking

Our Student Banking Program operates every Friday for all students. For every deposit made, the school receives a small commission that soon adds up. Extra Banking Packs are available from the Office.

Get Set for Prep

Enrolments and Information Packages are still available for children who wish to commence Prep this year and in 2016. If your child turns five by June 30th, they are eligible for Prep that year. Late last year, changes were made regarding Prep. Principals have the discretion to enrol students who turn five by July 31st. Prior to a decision being made, a detailed enrolment interview will take place to determine his/her suitability and readiness. The table below is a guide to assist families determine their child/ren’s Prep eligibility.

Following this, other sessions will also be offered across the school by other members of our Expert Teaching Team.
